

Are you looking for an easy, yet super awesome 4th of July hat craft?

Follow these instructions to make this patriotic hat! Then wear it into one of our VISIONBank locations to add a sticker to your BINGO card!

1. First collect all that you need:

- Red, White, & Blue cardstock
- Paper Plates
- Cotton Balls
- Glue
- Stapler
- Scissors

2. Cut out the templates below to trace them onto the colored cardstock. If you don't have colored cardstock, color your hat using crayons or markers!

3. Cut the center out of the paper plate. It is easiest if you fold the plate in half and then cut a half circle.

4. Cover the bottom of the plate with glue and stick the cotton balls onto it. You can also pull the cotton balls apart if you want to make a lengthier beard!

5. Once your "beard" is dry, glue the hat onto the top of the plate.

6. Next, glue the stripes onto the hat to make a 'Red, White, & Blue' pattern.

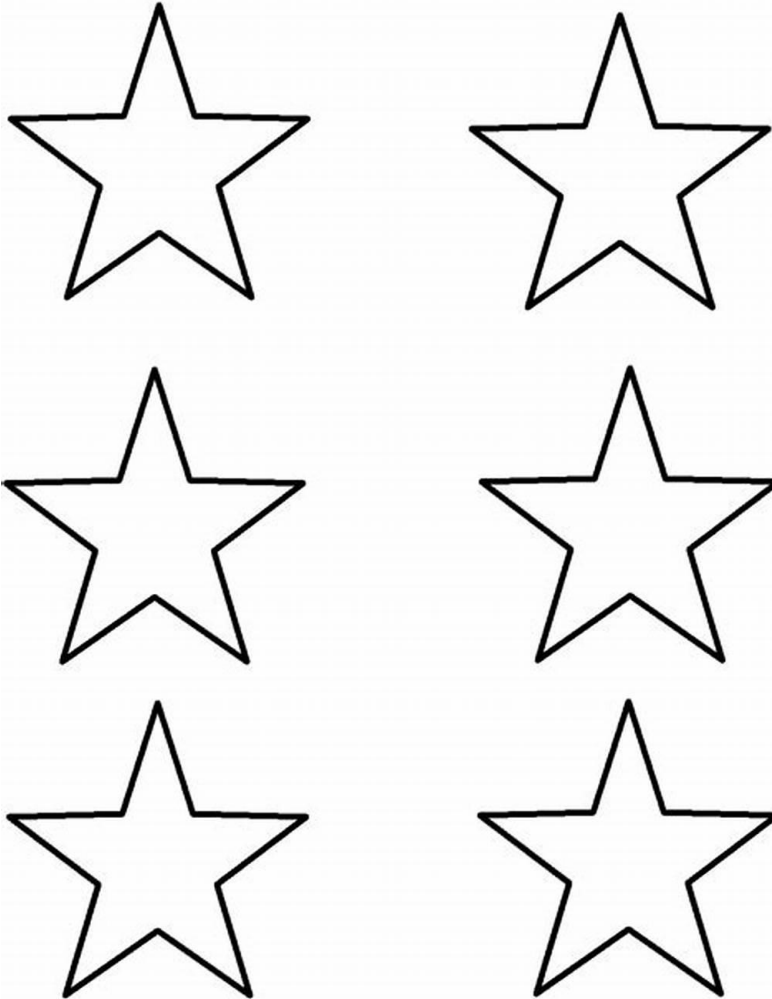

7. Add some stars to the brim of the hat!

8. Cut 2 strips from another piece of cardstock for the band of the hat. Staple a strip to each side on the backside of the hat.

9. Measure the band to your head, hold in place, remove, and staple!

10. Let the hat dry.

11. Finally, put your hat on and show your American pride!
